

My God, haven't you, the FCC done enough to destroy any possible "diversity" of programing in this country? Clear Channel owns 1200 radio stations with the same five formats...There are three networks...four major media companies...

You, the FCC have failed the American People (consumers) pitifully!
Do the right thing...stop this incredible vertical integration of media companies owning ALL of the damned microphones...

A "free press"? How in the hell is THAT supposed to happen?

I am a 37 year broadcaster, sick to death of your rulings...

Ralph Allenbaugh,
President
